

DANGEROUS & RESTRICTED GOODS

Tibesti Logistics | UK to Libya | Customer guidance

All goods must be declared before booking. Dangerous goods are **not automatically accepted**. Acceptance depends on written approval, carrier rules, route restrictions, and UK/Libyan requirements. Air (IATA/ICAO) and sea (IMDG) rules differ.

Items requiring prior approval

- Lithium batteries, power banks and battery-powered equipment
- Perfumes, alcohol-based liquids and aerosols
- Paints, varnishes, glues, solvents, fuels and oils
- Cleaning chemicals, pesticides and laboratory chemicals
- Vape liquids, e-cigarettes and related devices
- Certain medicines and medical products
- Generators and machinery containing fuel or batteries

Goods not accepted without specific written authorisation

- Explosives, fireworks, ammunition and weapons or weapon parts
- Illegal drugs, prohibited substances and items banned on the route
- Leaking, damaged, unidentified or undeclared dangerous goods

Documents we may request

- Product-specific Safety Data Sheet (SDS/MSDS), including Section 14
- Product name, manufacturer, ingredients and technical specifications
- UN number, hazard class and packing group, if applicable
- Quantity, weight, dimensions and packaging information
- Battery test information, invoices, licences or permits when required

Before you book

- Declare all contents accurately; never conceal restricted items in parcels.
- Email product details and documents before paying or delivering cargo.
- Wait for written confirmation of acceptance and any special charges.
- Pack and label goods as instructed; incorrect declarations may cause refusal, delay or extra charges.
